BOLD STATEMENTS, METALLIC MAYHEM, POP ART!

"I BELIEVE THAT ALL I SEE IN MY TRAVELS, ALL THAT I HAVE LIVED, ALL MY BACKGROUND; ALL THIS INFLUENCES ME IN A SUBTLE WAY. I CANNOT PRECISE WHAT INSPIRES ME... I THINK EVERYTHING CAN INSPIRE YOU.

DESIGNER DARLING

Born in the former Portuguese colony of Mozambique, Africa, Cristina Jorge de Carvalho holds a degree in Business Administration from the ISCTE. She developed a strong passion for architecture and aesthetics leading her to change paths and move to London, where she took an Interior Design degree at the Incbald School of design. In January 2013, she bagged two of the World's most prestigious design awards in London. The talented designer was distinguished with the awards for Best Hotel Interior for Europe and Best Hotel Interior for Portugal by the European Hotel Awards, for the interior architecture and design project of Altis Prime Hotel, developed by her atelier: CJC - Architecture & Interior Design. www.cjc-design.com

THE BIGGER PICTURE

The Panasonic Lumix GX7 may just be the Micro Four Thirds model we've all been waiting for, offering high-quality photos and videos with real-to-life details through excellent resolution image rendering and colour reproduction. And apart from that, we love its sturdy good looks. Say cheese! www.panasonic.net

STYLISH SEATS

Satisfy your passion for fashion with the Kartell Mademoiselle Chair Moschino Hearts by Philippe Stark. The pattern of the chair cover is the iconic "Cuori" print created by Italian fashion designer Franco Moschino. www.spacefurniture.com.sg

GET INTO BED

Inspired by the softness and comfort of the Husk armchair, the Husk bed is a new addition to Patricia Urquiola's Husk series for B&B Italia. Soft and geometric, simple and complex but above all, cosy and welcoming, the Husk bed is the ultimate cocoon of grandeur. www.bebitalia.com

LEGENDARY WRITING

Montblanc's latest Great Characters Limited Edition Leonardo pays homage to one of the greatest pioneers of science, Leonardo da Vinci. The writing instrument is inspired by his extraordinary inventions and his fascination with the study of flying. We're mesmerised with the intricate details of the design which reflects the original sketches of flying machines and the mechanical constructions created by Leonardo da Vinci. www.montblanc.com
