Compact design

The compact ACCT-510 Keychain Remote Control is ideal to take with you everywhere you go. With this small device, you can control one or multiple Trust Smart Home receivers such as your lights, blinds controller or garage door switch with a single push of a button. Turn on the garden lights or open the garage door when you arrive home late at night with a single push of a button.

Wireless control

Next to its rounded, compact shape, this keychain comes with a long battery life and battery low indicator. Since the keychain remote control works within a wireless range 30 meters, this is the compact solution for in and around your home!
