

K271 MKII

PROFESSIONAL STUDIO HEADPHONES

AKG[®]
by HARMAN

HIGHLIGHTS ■

Over-Ear Design

Maximum comfort for long studio sessions

Advanced Closed-Back Technology

High noise insulation and best possible sound reproduction

Patented Varimotion 30 mm XXL Transducer

Accurate signal transfer and great dynamic range

Auto-Mute Switch

Mutes headphones when taken off

Self-Adjusting Headband

Provides optimum fit every time

The AKG K271 MKII are professional over-ear headphones designed for studio mixing, studio monitoring and live performance applications. Perfect for vocalists and drummers and built to provide the best possible sound reproduction, their fully-enclosed, sealed design provides high noise insulation, low signal bleeding into studio microphones and maximum isolation for live-mixing applications. In addition to great sound quality and insulation, the AKG K271 MKII headphones are extremely durable and comfortable.

Not only designed to withstand the demands of countless hours in the studio, their self-adjusting headband provides an ideal fit and their over-ear pads nicely envelop the ears. Other features include an auto-mute switch in the headband as well as a professional mini XLR connector. The AKG K271 MKII headphones also come with a 3 m (10 ft) straight cable and 5 m (16 ft) coiled cable, so you can start listening to your music, mix or project right away. Altogether, from performance and ease of use to comfort and reliability, the AKG K271 MKII is a powerful tool for mixing and monitoring environments.

KEY MESSAGES ■

Hear the Details

Take your recording and live monitoring to the next level with the AKG K271 MKII headphones. Designed to enhance production, these headphones deliver the best possible sound reproduction and solid bass range, articulate highs and accuracy needed for the studio.

Produce in Comfort

Built for those long recording sessions, the AKG K271 MKII headphones provide an ideal fit. With their self-adjusting headband and over-ear pads, these cans allow musicians, producers and engineers to spend studio time in comfort.

Crafted for Excellence

As a leader in audio performance, AKG continues to raise the bar in providing exceptional sound quality. The K271 MKII headphones are no exception as their 30 mm XXL transducers and patented AKG Varimotion diaphragms deliver professional-grade sound.

Limited Leakage

Because musicians and engineers rely on headphones with strong isolation, the AKG K271 MKII is designed to prevent unwanted spill. Use the K271 MKII headphones in the studio and experience how their fully-enclosed, sealed design provides high noise insulation and limits signal bleeding.
